*Meet Our
Lead Teacher*
Mae Stair

"In my daily
interactions with
children, the way I
am means as much or
more than the things
I say or teach."

Life is the Curriculum

Our mixed-age, family-style classrooms support the relationship-based care children need — with one another, with family and community, and with the same care providers year after year. We foster creativity through imaginative play, music, movement, games, and the arts. A strong connection with nature, natural toys, and whole foods rounds out the experiences that rhythmically support children's ideal development.
